DETAILED ACTION

Election/Restrictions

1. Claims 21-24 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 4/30/2008. As such, claims 1-20 are examined below.

Information Disclosure Statement

2. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

3. The information disclosure statement filed 6/1/2005 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Objections

4. Claim 19 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 19 fails to further limit claim 1 in so far as it collapses the claimed 3 terminals into 2. As such, claim 8 is broader than claim 1 since fewer structures are required.
5. Claims 1,6-13, and 20 contain limitations directed to "informations". Examiner notes that "information" is a "non-countable" noun that does not have a plural form, even though the word may imply more than one part to the thing represented by the word and that implication is made explicit by the recitation similar to a "plurality of information items."

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
7. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 1-2, 5-8, 12, 15-16 and 20

These claims contain limitations that are recited as statements of intended use.

For example, claim 1 recites, "the first terminal apparatus comprises an inputting

device for prompting to input desirable one of a plurality of payment plan informations". Language that suggests or makes optional but does not require steps to be performed or does not limit a claim to a particular structure does not limit the scope of a claim or claim limitation. As such, limitations recited as statements of intended use render the claim indefinite in so far as they call into question the limiting effect of the language of the claim (see MPEP § 2106 [R-6], particularly under heading II for further discussion).

With respect to claims 3-4, 9-11, 13-14 and 17-19

These claims are rejected for incorporating the material rejected above.

Allowable Subject Matter

8. Claims 1-18, and 20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
